Why?

Dynamic are looking for enthusiastic, experienced individuals to provide support to amazing children and young people with disabilities aged 8 - 19 years to achieve their potential through planned activities to develop their personal and social skills. Our activity groups are very high energy and about having fun!

Ideally a qualification or working towards a qualification in a related discipline would be preferable (e.g. QCF L3 Health and Social Care, CCLD, Playwork) together with some experience. However, we equally value applicants who can demonstrate experience working with children and young people and/or supporting those with additional needs/disabilities who may not initially possess a related qualification as described.

An enhanced DBS is required for all these positions.
